

Mocking an **API + Data**  
for your **FE Projects**.

# Why?

Doing these things help build  
**production ready**  
applications faster.

HTTP Requests (GET, POST, PUT, etc)

Generating large amounts of data

Rendering UI Elements

Benchmarking and Testing

...

# Developer Tools

## Data

FAKER

<https://www.npmjs.com/package/faker>

## API

json-server (REST)

<https://www.npmjs.com/package/json-server>

# Developer Tools

## Data

FAKER.js

<https://www.npmjs.com/package/faker>

## API

json-server (REST)

<https://www.npmjs.com/package/json-server>

json-graphql-server (GraphQL)

<https://www.npmjs.com/package/json-graphql-server>

**Let's see it in action!**

Thank you 🙌
